Design Notes & Key

- The headband edges are created by knitting a "built-in" I-cord. The stitches which form this neat edge are shown in red to distinguish them from the Wanderlust pattern in the body of the headband.
- To make the headband wider, continue adding sts just inside the 3 stitch edge and keep those stitches in rev. st. st. background
- Kfbf = knit into the front, the back and the front loop again before removing stitch from the left needle (this adds 2 sts)
- Kfb—knit into the front and then the back of the same stitch (adding 1 stitch)
- M1 = make 1 (this adds 1 stitch) - check out our website tutorial if you don't know how to M1
- sl 1 = slip the stitch as if to purl
- PM = place marker
- SM = slip marker

Work rows 5—1, in reverse order from how you started, but DECREASING by knitting 2 together where you worked M1 at the beginning.

Work I-cord on remaining 3 sts for equal length as you did to begin with (about 7")

Voila!

For the Wristlets: Cast on 40 sts. DO NOT JOIN in round—these are worked flat.

Work ribbing as follows for 2 inches:

Row 1: *C2F, p2*

Row 2: knit

Work rows 6—14 of Wanderlust pattern to length desired.

Bind off in pattern, but knitting 2 together at each cross.

Pattern Note: if you want the middle finger lacing as you see in the photo, when you get to binding off, between the 2nd and 3rd crosses, work a free I-cord for about 10 rows before attaching and continuing in bind off.

Finishing:

Fold in half and seam edge leaving an opening for the thumb.
